

Forks Over Knives App Now Available for Android

By Forks Over Knives
2015-05-01 12:35:33

The Forks Over Knives Android app is finally [here](#)!

Our dedicated team set out to create a first-class mobile experience and to make every aspect of adopting a plant-based lifestyle as easy as possible.

The recipe app features contributions from over 20 leading plant-based chefs and will be updated with new recipes each week. Beautiful photos accompany each meal and easy-to-follow, step-by-step instructions make preparation and cooking a breeze. A built-in personal shopping list makes grocery shopping easy and keeps you organized. In addition, you can add notes to a recipe, save favorites for later, and see which recipes are trending in the community.

The Forks Over Knives app is currently the bestselling food and drink app on the iTunes store, and we're so happy our Android readers can now get in on the action too.
